- Monitoring explicit renewable products

By, Christophe Dromacque, VaasaETT Oy Ab Ltd

15.00 Coffee break

15.15 Discussion

What kind of information (data type & content, format) would RECS members like to see in relation to statistical information regarding the following topics:

- Renewable markets in aggregate (prod, cons, load, NRAP target performance towards 2020)
- GOs outside / within the EECS area (supply, demand, prices)
- Retail (voluntary markets) markets (volumes, prices)
- State support mechanisms

16.00 Close of meeting
