

# Consumers on the green electricity market

*Can consumers make a difference?*

*Public hearing at the  
European Parliament, Brussels  
23 January 2012, 13.00-15.00  
József Antall Building, room 6Q1*

*On the liberalised European electricity market, consumers are free to choose their supplier. On top of that, consumers now also have the freedom to choose between several electricity products.*

*What tools have been developed to guarantee this product choice?*

*Who is benefiting from that freedom?*

*And what are the challenges?*
